

crossli

Re-imagining the world of
cross border payments

PITCH DECK

\$XLI Token | ERC-20

● Leaders in Marketing

CROSSLI will merge fiat and cryptocurrency transactions through a unified platform, serving a **2 Trillion Dollar+** global payments market.

Our mission—to create a world where individuals can transfer funds with **ease**, **speed** and **security**, using the power of blockchain.

Problems

The global cross-border payments system remains fragmented

High Transaction Fees

Costs of sending money internationally are extreme

Slow Processing Times

Transactions can often take multiple days

Limited Currency Options

Few currencies are supported, and difficult to access

Complex Compliance

Verification process is tedious and time consuming

● The Solution

CROSSLI will bridge the gap between traditional and digital finance

Faster Settlements

Leverage blockchain smart contracts for high speed.

Lower Costs

Advanced automation & optimised financial pathways.

Multi-Currency Support

Robust support for a wide range of currencies.

Blockchain Security

Inherently transparent, secure and immutable.

● Key Features

1. Crypto Dashboard

- Send money without banking restrictions.
- Manage all your cryptocurrencies on in one place.
- Real-time conversion rates and transaction history.

3. Payment Gateway

- Pay businesses in crypto, and they receive fiat currency automatically, at the best rates.
- No crypto expertise required for merchants.
- Seamless integration with existing businesses.

2. Remittance Widget

- Lower Fees than traditional money transfer services.
- Instant, Secure and trackable international transfers.
- Simple and intuitive user interface.

4. Invoicing System

- Automated invoice generation and payment tracking.
- Get paid in any currency with low conversion fees.
- Simplified international payments.

● Reliable and Resilient

Fault Tolerance:

Redundant servers, databases, and load balancing ensure uninterrupted operations, while microservices isolate failures to minimise impact.

Disaster Recovery:

Global redundancy, automated failover, and secure, encrypted backups enable seamless recovery during disruptions.

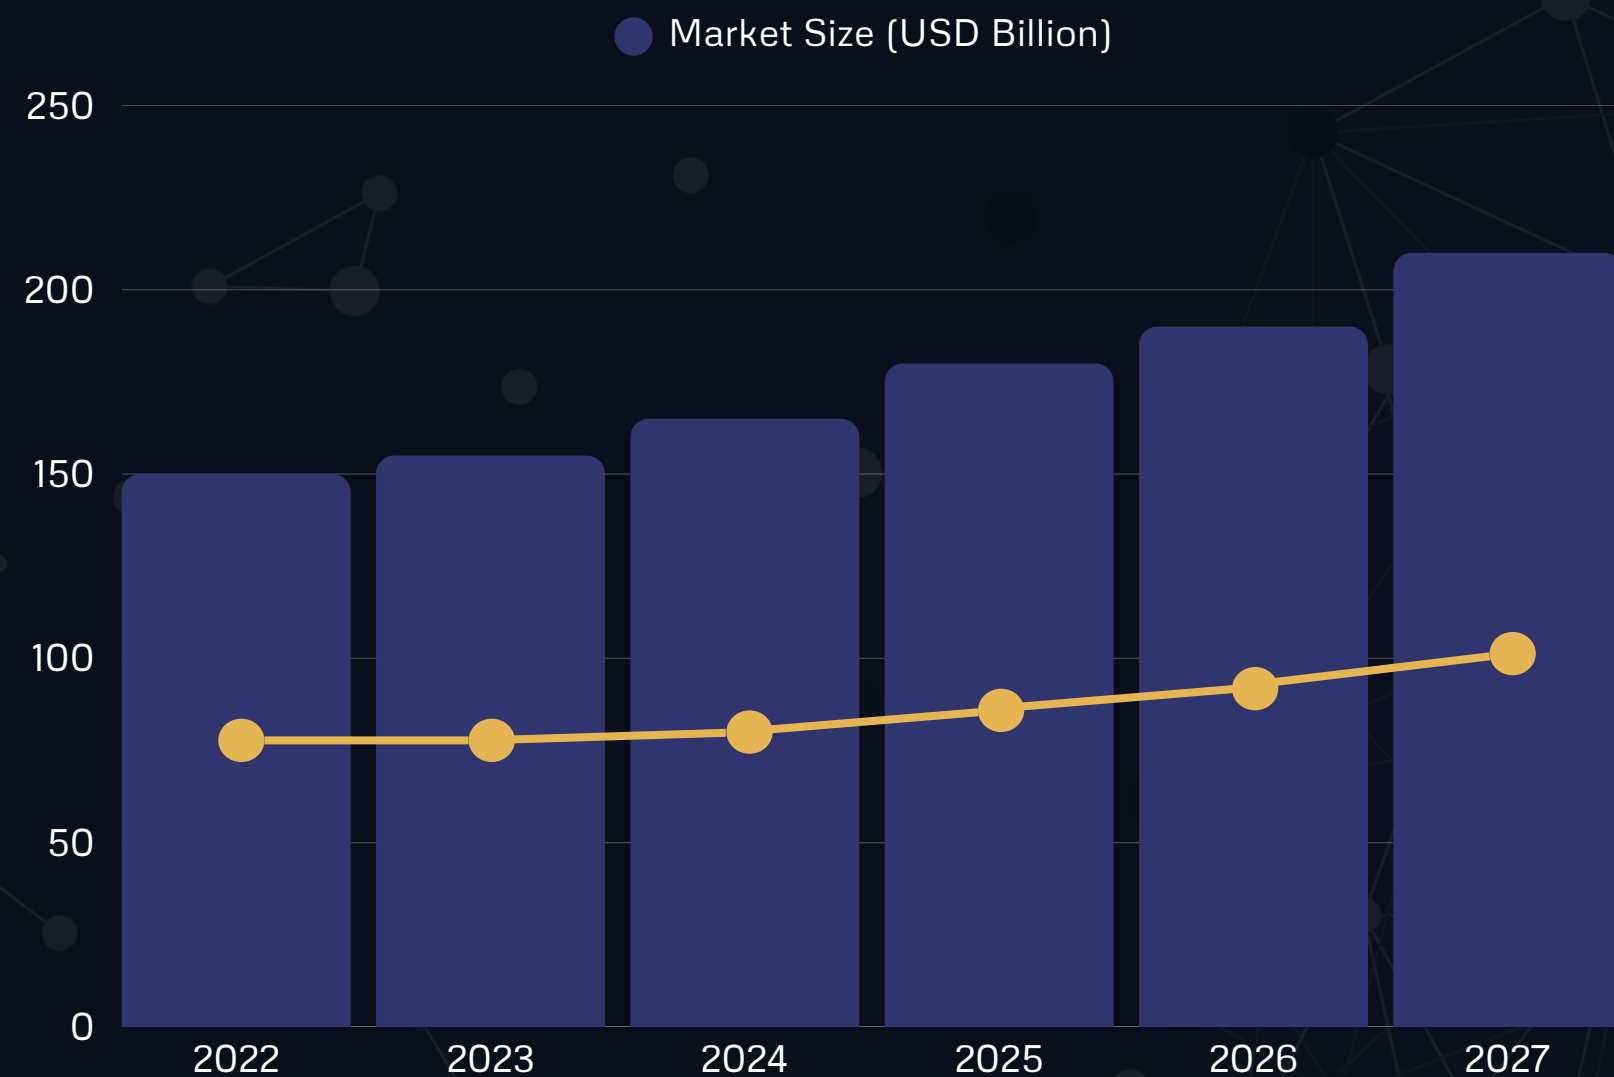

Proactive Monitoring:

Automated systems continuously detect and resolve issues in real-time to maintain reliability.

Transaction Safety:

Rollback capabilities automatically reverse failed transactions, ensuring trust and data consistency.

◎ \$2T Market

The cross-border payment market is growing at **15% annually**

\$800 Billion+

Peer-to-Peer Remittance Market

\$455 Billion+

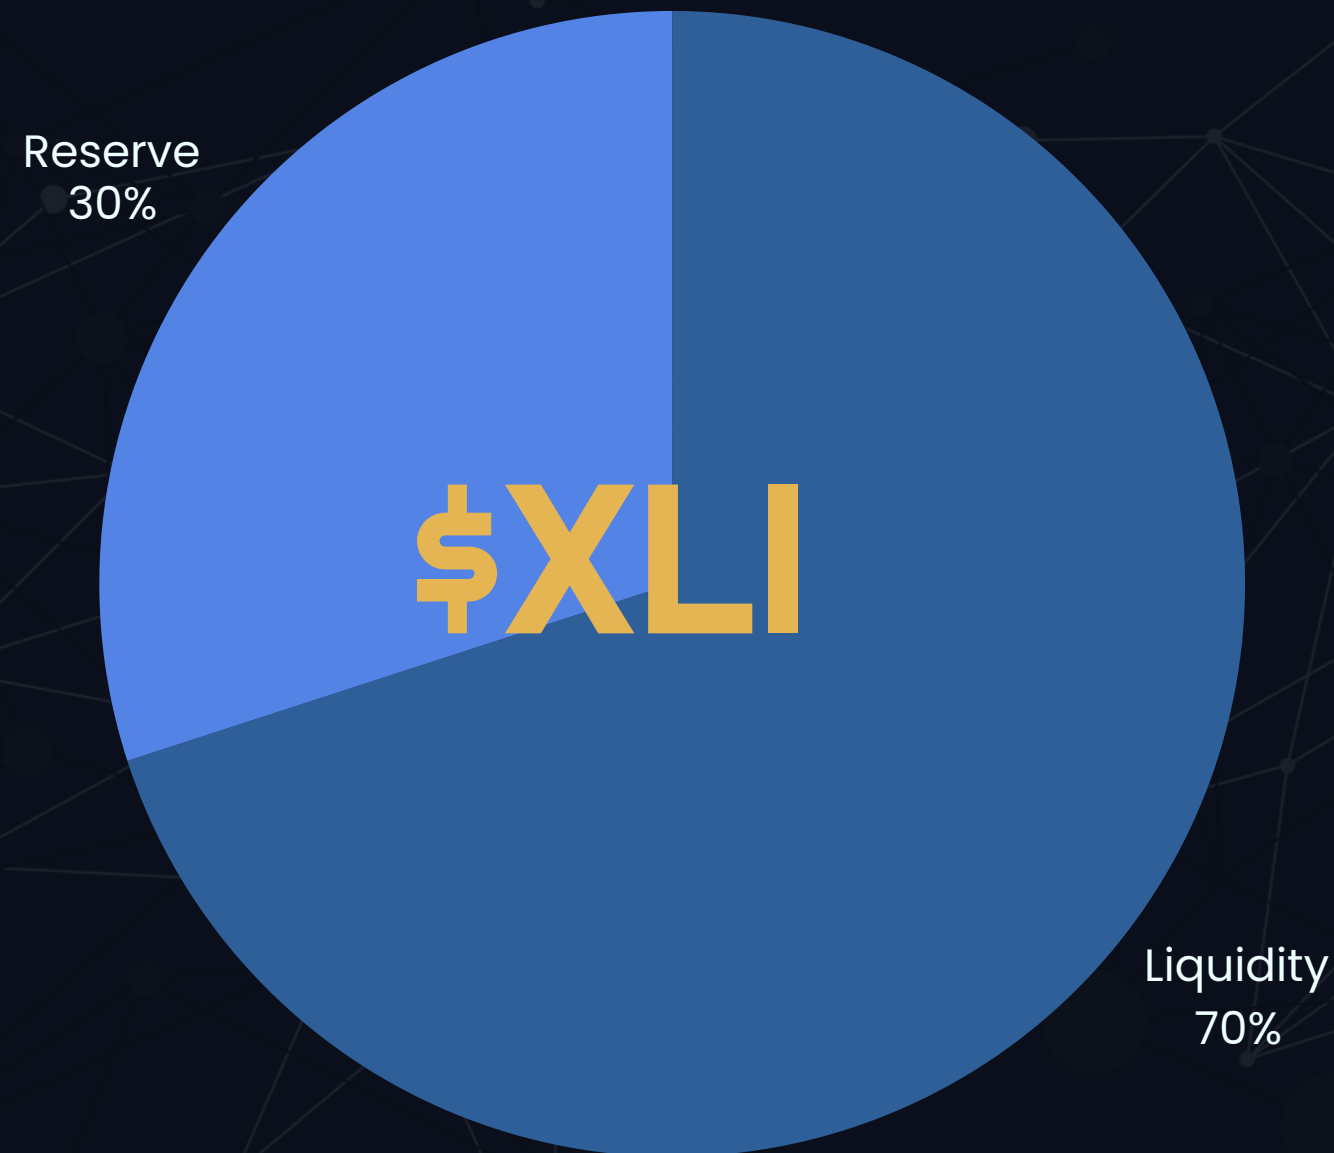

Freelancer Payments Market

\$985 Billion+

Merchant Services Market

CROSSLI offers fees as low as **5%** using blockchain efficiency, sharing revenue with **\$XLI** holders with **zero tax** on wallet-to-wallet transfers

● ERC-20 Tokenomics

Supply | 100,000,000

Reserve | 30%

Development reserve is necessary to fund CEX listings, partnerships and marketing.

Liquidity | 70%

A large liquidity fund is required to ensure long term trading stability, locked in a smart contract.

+ \$XLI Staking Rewards

● Tech Overview

Built for Speed & Scalability

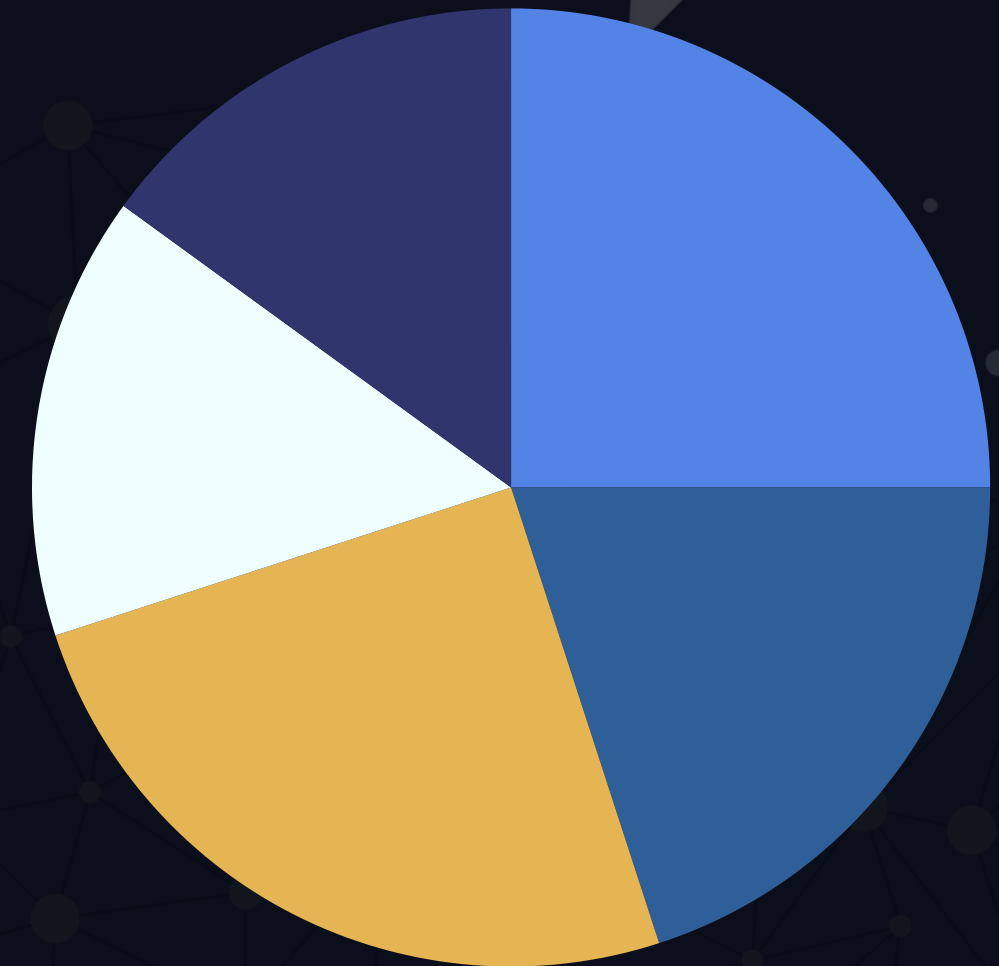

- Developed using Node.js to ensure high performance and responsiveness.
- System architecture achieves a **99% transaction success rate** and supports over **10,000+ TPS** during peak loads.

Database & Hosting

- **MongoDB**: Flexible and reliable NoSQL database for efficient data storage.
- **Hosted on AWS**: Ensures robust performance, reliability, and scalability.

API Integrations

- **Circle API**: Enables non-custodial wallet integration.
- **Unlimit API**: Facilitates seamless on-ramp and off-ramp transactions.
- Handles **5,000+** concurrent API calls with an avg. response time **under 200ms**.

- API Integration & Processing
- Core Backend Services
- Cloud Infrastructure
- Data Management
- Frontend Services

● Roadmap

Phase 1 Foundation & Development

Platform Architecture and Core Features

- Core platform development
- Smart contract development
- KYC completion with AssureDefi
- KYB verification with Unlimit
- Beta testing with business partners
- Implement Multi-chain support
- Add 50+ fiat and crypto currencies

Complete

Phase 2 Launch & Partnerships

Platform Launch and Strategic Integrations

- On/Off-ramp fiat with Unlimit & Circle
- Official platform launch
- Payment Gateway
- Token launch and distribution
- Mobile app development and launch
- Strategic partnership expansion
- Influencer partnership program
- Asset Tokenization Platform Launch

In Progress

Phase 3 Expansion & Innovation

Mobile Access and Enhanced Features

- Global Currency Accounts
- Instant Virtual Debit Cards Launch
- Digital Asset & NFT Checkout Integration
- Revenue sharing model implementation
- Advanced yield optimization features
- Cross-chain integration expansion
- Enhanced security features

● Upcoming

Mobile Access and Enhanced Features

- Global Currency Accounts
- Instant Virtual Debit Cards Launch
- Digital Asset & NFT Checkout Integration
- Revenue sharing model implementation
- Advanced yield optimization features
- Cross-chain integration expansion
- Enhanced security features

● Our Expertise

Bhavy

Co-Founder & Chief Technical Officer

A blockchain expert since 2018, Bhavy specialises in cryptography and distributed systems. He leads CROSSLI's technical architecture, ensuring a scalable, secure, and innovative platform.

Ayu

Co-Founder & Lead Developer

Ayu combines technical expertise with user-focused design, driving CROSSLI's product vision. With a strong background in DeFi, smart contracts, and full-stack development, Ayu shapes the platform's core features.

Cryptee

Chief Marketing Officer

With 6 years in marketing, Cryptee excels in growth strategies and community engagement. Their data-driven approach has successfully expanded prominent DeFi projects and now drives CROSSLI's global presence.

Matias

Business Development Manager

Matias brings seven years of experience in venture capital and blockchain strategy. He leads CROSSLI's market expansion, partnerships, and tokenomics to secure a competitive edge.

THANK YOU.

CROSSLI is redefining cross-border payments and financial services by seamlessly blending the reliability of traditional finance with the transformative power of blockchain technology. Our solution delivers unprecedented speed, cost-efficiency, and accessibility, paving the way for a more inclusive global financial ecosystem.

**Join us, let's build
the future of global finance.**
